

Agenda Item 12 Marsh Farm

The Town Council have been made aware of contractors moving soil heaps on the site to create a soil boundary wall.

The Town Clerk has reported this matter to Chelmsford City Council's Planning Enforcement Team to highlight that lorries are accessing the site. As the site adjoins a Site of Special Scientific Interest (SSSI), these activities may have environmental implications. The works are also adjacent to Public Right of Way 53 and may affect both the footpath and its users.

Chelmsford City Council has confirmed that a planning enforcement case has been opened in relation to this matter and that a site inspection has been carried out.

The Council is currently reviewing the available information and intends to discuss the matter at the earliest opportunity.

Please be assured that this issue is being investigated under Planning Enforcement Case Reference 26/00178/ENFB. Once the initial report has been completed and approved, a further update will be provided.
