It mainly concerns the requirement for every local council to have a generic email account hosted on the local councils owned domain/website such as .gov.uk or .org.uk The website itself must meet the Web Content Accessibility Guidelines (already covered in the internal audit check list above). To warrant a positive response to this new Assertion 10 the Council must also have an IT policy in place. The Practitioners' Guide Paragraph 5.122 provides access to an IT Policy Template, which I suggest the Council adopts even if an existing IT policy exists, thus ensuring every detail is covered. I have provided the Clerk with a “Word” version of the template to compare with the Council's existing IT Policy..</p>
