

## Standard Roses

Standard roses have a single tall stem, topped with foliage and flowers, like a small tree. They are usually a modern rose or miniature rose grafted onto a strong, bare stem.

Sizes for all 130- 150 mm high stems and may flower at different periods. They have a light to medium fragrance.

Each Rose is allocated on which is the next available, though we do try and assist with options. If you wish to quote a preference, it is required that 2 choices are picked in order we have more of a chance of fulfilling requests.

Our Roses will come with a memorial plaque included in the cost. We do not intern or scatter ashes next to or under them, as we do not want to disturb them once placed.
